

Can you actually tell the AMERICAN PEOPLE why making THIS and SIMILAR proposed rules/laws are NECESSARY??! I mean really, WHAT'S WRONG WITH INTERNET SERVICE COMPETITION?! WHAT'S SO AWFUL ABOUT HAVING INTERNET SVC PROVIDED BY MORE THAN 2 PROVIDERS?? Am I going to see ABC's John Stossel doing a "GIVE ME A BREAK!" episode on the FCC trying to make these WACKY and HORRENDOUS changes?! PLEEEASE, Do not let the Bell "Wolves" own the chicken coop you already allow them to dominate. Realize, "Competition" requires competitors to be alive, so quit playing that 'SIM-Internet Provider' game.

If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Yep, your (and OUR) internet provider world will become limited to something like a Vanilla or Strawberry --\$5/scoop; Ford or AMC \$50K ea; Wool or Polyester size 26 or 54. WorldCompetition in the American Telecom marketplace will not be incentivized, it will be torpedoed. ISPs and CLECs will die, consumers will be deprived of choice and the FCC will be wholly to blame for the travesty. DO NOT DO IT. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of competition and the small businesses of our country. Right decisions have a cost. Will you pay the price for freedom and truth for the American People and stand up for what's right?! Will you resist the opportunity for hidden gain? Every decision is a seed. Will you grow wheat or weeds? Thirsting in a desert, would you gulp the last canteen capfull of water, or give it to your son?
